

**MANY** people in this section think that Ivory is a laundry soap. So it is, but that is not all. It is equally fine for the toilet and for the same reasons that it is fine in the laundry.

Because it is pure, because it is mild, because it lathers freely and rinses easily, Ivory Soap is unequalled for all laundry work.

Are not these the qualities you desire in toilet soap? The fact is, you cannot get a better soap for the toilet than Ivory. Do not let its low price make you think otherwise.

### Seven Years Troubles Now Forgotten

**Kansas Farmer Had a Hard Time Overcoming Them But Says he Feels Like New Man Now.**

There has been a wonderful change in my run-down condition," states J. W. Arthurs, a retired farmer who resides at 1321 North Hillside, Wichita, Kan. After a tussle of nearly seven years with catarrh I found myself almost broken in health, but since taking Tanlac a few weeks I feel a different man.

My trouble started in my head and there was a continuous dropping of mucus to my throat. I suffered from dull headaches most all the time, and severe pains would hit me in the back and between my shoulder blades. Catarrh started on me about seven years ago and it seemed to be growing worse every day.

"I have only taken two bottles of Tanlac and I feel improved in every way. Tanlac has limbered up my joints. The pains have all about left me. My catarrh is greatly relieved, and I have confidence enough in Tanlac that I am still taking it, and just recently bought some for my daughter.

Tanlac builds health through the stomach, blood and nerves. Tanlac's absolutely superior qualities as an appetizer, invigorant, strength producer, tissue builder and general reconstructive tonic that spurs jaded organs back to normal action have been unhesitatingly acknowledged by thousands.

Tanlac can be obtained in Baxter Springs at the M. E. Reddy Drug Store.

### Jim Goodwin Happy.

Jim Goodwin is one of the real happy fellows these days. He is half owner of the eighty acres on which the Blue Bird mill is located, and the mill is turning out ore at the rate of many tons each shift. Just as soon as a tram is completed dirt will be taken from another shaft, and the output of the mill will be doubled, at least. The mill now runs only part of the time. The dirt from this property is very rich, and Jim's share of the royalties is only about \$65 per day. When the mill is put on full time Jim will pull down about \$125 per day. And this is not all of it. Two or three more mills will be built on the land this summer, and then, but what's the use? The ground has been and is being drilled, and more big finds are being made. The John M. Cooper estate owns the other half interest in the land.

Mr. Goodwin and the Cooper estate also own 160 acres, right north of Picher, and big strikes have been made on this land.

Mr. Goodwin and Roy Harvey own a lease on 130 acres of land directly adjoining Picher on the north.

Mr. Goodwin owns a forty acre lease just east of Picher, and he has interests all over the district.

Yes, Jim is feeling pretty good, thank you. But is he happy? Well, you know some fellows are never satisfied, and Jim is after more holdings.

### For a Billous Attack.

### The Best Recommendation.

The strongest recommendation any article may receive is a favorable word from the user. It is the recommendations of those who have used it that makes Chamberlain's Cough Remedy so popular. Mrs. Amanda Gierhart, Waynesfield, Ohio, writes, "Chamberlain's Cough Remedy has been used in my family off and on for twenty years and it has never failed to cure a cough or cold." Obtainable everywhere. Adv.

### The Lily is a Simple Cream Separator

IF you ever owned a cream separator before you knew the **Lily**, you will appreciate **Lily** simplicity. It used to be tight this, and move that—adjustments that you never felt quite safe in making yourself. Although even a wasteful separator was much better than hand skimming, you were far from satisfied.

Most of those adjustments are now done away with. There is only one place where wear affects the work of the **Lily** and that is on the hardened steel point that carries the weight of the whirling bowl. And since this point is made of finest tool steel, tempered like a fine razor, you can see that the adjusting will not take much of your time.

Go to the dealer and see this feature and the many others—the simple splash oiling system, the easy operation, the ease of cleaning. The **Lily** is a real cream separator.
